DAVID AHENAKEW, O.C., FORMER GRAND CHIEF, ASSEMBLY OF FIRST NATIONS (AFN), FORMER CHIEF AND SENATOR, FEDERATION OF SASKATCHEWAN INDIAN NATIONS (FSIN); IN A DECEMBER 13, 2002, ADDRESS TO AN FSIN CONFERENCE ON HEALTH CANADA POLICY.

Dr. Jim Pankiw, MP

For too long, the vast - though silent - majority of people have been intimidated by Indian lobbyists and supporters of race-based privileges from speaking out against programs that divide our country into so-called "First Nations", and the rest of us.

However, the offensive remarks of David Ahenakew and other prominent Indian lobbyists, have stripped the veneer away from their hidden agenda. Along with successive Liberal governments, they have undermined equality by segregating Indians and attaching conditions of race to social policy - It's clear who the racists are.

The result is a dysfunctional and disastrous Indian policy that uses \$8 BILLION in federal tax dollars EACH YEAR to perpetuate an historically inspired collective guilt among non-Indians; and a culture of self-victimization/dependency among Indians. It's time to say "No More"; I invite you to fill out the questionnaire, and speak out against racist schemes that divide our society.

With your support, you can be certain that I will continue to "tell it like it is" by defending and promoting the principle of equality for everyone.

Sincerely,

DR. JIM PANKIW, MP

"... homely, diseased people on boats... because you were the lowest of the low. You came here because you couldn't make a living, and you had nowhere else to go. And what did we do? Well, we welcomed you. Stupid mistake. Really silly mistake. We should have kicked your ass for a hundred years. And we really should have killed you all for a hundred years, and hopefully, selective breeding could have produced some decent people."
